HPCC 2020

- Welcome to HPCC 2020 Virtual Conference hosted by the Handheld and Portable Computer Club
- Greetings to HPCC members and guests from HHC and Allschwil
- HPCC is now in its 38th year and still publishes Datafile magazine covering not just HP, but SwissMicros and more
- Meetings are usually in London on the second Saturday of the month
- Due to Covid-19 meetings are now twice monthly by Webex on the second and fourth Saturdays
- Join the club at <http://hpcc.org/membership/>

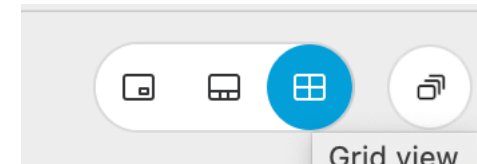

HPCC 2020 Etiquette

- To avoid accidental disturbances, please stay muted except during breaks and Q&A - like this  An image of a Webex 'Unmute' button. It is a white rounded rectangle with a red microphone icon and the text 'Unmute' followed by a small downward arrow.
- You can text within Webex to individual participants or the whole conference
- The conference is being live streamed (unedited) on YouTube and recorded for publication on YouTube
- The timetable is packed, but there will be time to talk at the end

HPCC 2020 Etiquette

- You can also move to the Tea Room (Breakout Room) at any time where you can talk or text with others
- You only need to use Webex or YouTube, not both
- There is a 15 second delay on YouTube
- In the top right of Webex there is a Grid View icon, click on that and you can select different views. You will need to use one of the other views to see the presentations in full screen

HPCC 2020 Timetable

Saturday 10th October 2020
